

Similarly, the figure legend for as-filed Figure 15 (page 10, lines 22-26) refers to whole-cell outflow current recordings from various human tumor cell lines in addition to STTG1 which corresponds to each panel of as-filed Figure 9. Such descriptions correspond to Figure 9 and do not match Figure 15. In further support for renumbering Figures 9 and 15, Applicants have attached copies of the formal drawings from U.S. Patent 5,905,027 which issued from parent application 08/774,154 where the correction to the numbering of Figures 9 and 15 was also made.

Conclusion

The foregoing amendments and remarks are being made to place the application in condition for allowance. Applicants respectfully request reconsideration and the timely allowance of the pending claims. A favorable action is awaited. Should the Examiner find that an interview would be helpful to further prosecution of this application, she is invited to telephone the undersigned at her convenience.
